Lord Sackville's Probable Course — An American Lady to Re Mistress Pro Tem of the British Legation—Representative Opinions — Perry Belmont's Views— A Good Appointment—The Kearsage to Go to Haytl—Altogether Wrong.

LORD SACKVILLE'S PROBABLE COURSE. Washington, Nov. 1.—There is naturally much speculation here as to the probable course of Lord Sackville, the British Minister, in the present embarrassing state of affairs. It was thought the move most agreeable to him would be immediate departure from Washington. but a gentleman in position to know said yesterday afternoon that he did not think Lord Sackville would be in any hurry to leave here. He said:

"I have not seen the Minister myself. but a friend of mine who talked with him on Tuesday night was told that he did not contemplate an immediate departure. I don't think it at all probable that Lord Sackville will leave here before the elec-

At the British Minister's residence perfect silence is maintained on the subject of the President's action. What Lord Sackville's position will be at home will depend chiefly upon his influence there, and the disposition of the British towards this Government. If the British Government determines to sustain him he will receive an appointment of equal rank to the one he retires from. He might be promoted to a higher mission. This would undoubtedly be regarded as intended in the nature of a rebuke the action of this country.

A SINGULAR OUTCOME OF THE LORD SACK-VILL INCIDENT.

WASHINGTON, Nov. 1.-The Star has the following: Within about two weeks an American lady will be the mistress of the British Legation at Washington. This is an interesting and curious outcome of the Lord Sackville controversy. There is now no British Minister at Washing ton. That office became vacant on the notifica tion of Lord Sackville that the President would have no further official communication with him. This does not leave the British Government unrepresented here. The attaches of the Legation are not the Minister's personal staff, and his dismissal or recall does not affect their position. The secretary next in rank to the Minister at once becomes acting Minister, and all official communications are through him. Mr. Edwardes, the first secretary of the British Legation, is now absent, and is not expected to return for some time. Mr. Michael Herbert, recently made second secretary, will become acting Minister until Lord Sackville's successor is appointed, or until Mr. Edwardes returns. Mr. Herbert recently arrived from Europe, and is to be married to Miss Bettie Wilson, of New York. The bride will thus become the head of the Legation household in this city as long as Mr. Herbert is acting Min-

REPRESENTATIVE OPINIONS. WASHINGTON, Nov. 1.—Representative Woodburn, of Nevada, whose attack on the Administration as being in sympathy with England was probably the most savage made in the long tariff debate, said yesterday, in the course of an extended interview, in referring to the

Sackville trouble: Lord Sackville merely voiced the sentiments of the British Government and people. He had no business to do so, and has been punished for it, but that does not affect the fact that the British do desire Mr. Cleveland's re-election. I do not see why Minister West's letter should have caused any surprise, except his being so indiscreet as to write it. There was no new disclosure in the expression of British sympaper in England and Scotland advocates the re-election of Mr. Cleveland. They make no attempt to conceal their preference for him, House who will carry out the policy he has laid

down. The Star says: The action of the President in summarily notifying Lord Sackville that he would no onger be recognized as the British Minister iere is a source of hearty exultation among the Democrats. The President's party friend maintain that he has turned the affair to great political account, and that his notice to the British Minister makes sure the support of the

WASHINGTON, Nov. 1 .- Mr. Belmont, chairman of the House committee on for ign affairs, who was in Washington yeserday, was asked his views on the Sackville incident. He thought Secretary Bayard's statement to the President left ittle more to be said. "But," he added, 'I sincerely trust this will be the last time that our relations with other governments will be made an issue in a presdential canvass. No political party ought to be blind to the injury which must thus result to the position of the United States abroad. The interests of the United States are greater and more important than those of any party."

A GOOD APPOINTMENT. THANKSGIVING.

The President's Proclamation Setting Apart Phursday, November 29, as a Day of National Phanksgiving to God for All

WASHINGTON, Nov. 2.—The President yesterday afternoon issued the following PROCLAMATION:

Constant thanksgiving and gratitude are due from the American people to Almighty God for His goodness and mercy, which have followed them since the day he made them a Nation and vouchsafed to them a free government. With loving kindness he has constantly ied us in the way of prosperity and greatness. He has not visited with swift punishment our shortcomings, but with gracious care he has warned us of our dependence upon his forbearance, and has taught us that obedience to His holy law is the price of a continuance of His prec gifts. In acknowledgment of all that God has done for us as a Nation. and to the end that on an appointed day the united prayers and praise of a grateful country may reach the Throne of Grace, I, Grover Cleveland, President of the United States, do hereby designate and set apart Thursday, the 29th day of November, instant, as a day of thanksgiving and prayer, to be kept and ob-served throughout the land. On that day let all our people suspend their ordinary work and ons, and in their accustomed places of worship, with prayer and songs of praise, render thanks to God for all His mersies: for the abundant harvests which have rewarded the toil of the husbandman during the year that has passed, and for the rich rewards that have followed the labors of our people in their shops and their marts of trade and traffic. Let us give thanks for ; eace and for social order and contentment within our borders, and for our advancement in all that adds to national greatness. And, mindful of the effective dispensa tion with which a portion of our land has been visited, let us, while we humble ourselves before the power of God, acknowledge His mercy in setting bounds to the deadly march of pestience; and let our hearts be chastened by sympathy with our fellow-countrymen who have suffered and who mourn. And as we return thanks for all the blessings which we have received from the hands of our Heavenly Father, let us not forget that He has enjoined upon us charity; and on this day of thanksgiving let us generously re member the poor and needy, so that our tribute of praise and gratitude may be acceptable in

he sight of the Lord. Done at the City of Washington, on the 1st day of November, 1863, and in the year of indeendence of the United States the one hundred nd thirteenth. In witness whereof I have hereunto signed my name, and caused the seal of the United tates to be affixed.

THE HAYTIEN TROUBLE

The United States Cruiser Boston Inter-cepted at Elegaton, Jamaian, and Or-dered to Proceed to Hayti to Look After American Interest

WASHINGTON, Nov. 2.—The Navy Department is doing all it can to hasten the arrival in Haytien waters of sufficient force to protect the interests of Amoricans there. Commander Harmony, Acting Secretary of the Navy, was seen by your correspondent last night. He said the Kearsarge will be ready to sail in three or four days. In the meantime, the department has been trying to communicate by tele-graph with the Boston, which recently sailed from New York, and which is now at Gravtown or somewhere off the coast of Nicaragua. It is impossible to reach her by telegragph direct, because there is no line to the city where she is thought to be living. But instruc-tions will be immediately telegraphed to the United States representative at the nearest point, and he will forward them by the most expeditious way to the ship. "The Boston." said the Commodore, "will go to Hayti. The Kearsarge will go, too. It is simply a question which will get there first, but one vessel will be equal to all needs of the occasion. Whatever American vessels have been seized will be promptly taken back. The Haytien Government has done a very stupid

thing in establishing a blockade without giving any notice of it." Information having been received at the Navy Department this morning to the effect that the steel cruiser Boston had arrived at Kingston last night. Acting Secretary Harmony decided to revoke the orders sending the Kearsarge, now lying in dock at Portsmouth, N. H., to protect American interests in Hayti, and to orders the Boston there in her stead. Accordingly, orders were sent to her commander to pro-ceed to Port-au-Prince without delay and to do all in his power to preserve the safety of American residents there in case of trouble arising out of the Government's recent action in seizing the steamer Haytien Republic. The run from Kingston to Port-au-Prince will take about twelve hours, whereas it would
